NOTIFICATION OF REFUSAL

(Rule 18 of the Common Regulations under the Hague Agreement/ 37 CFR 1.1063)

Applicant must file any reply to this communication directly with the United States Patent and Trademark Office. Applicant may **NOT** file such reply through the International Bureau.

This refusal relates to all the industrial designs that are the subject of the international registration

DETAILED ACTION

Notice of AIA Status

The present application, filed on or after March 16, 2013, is being examined under the first inventor to file provisions of the AIA.

RESTRICTION NOT REQUIRED – CHANGE IN APPEARANCE

This application discloses the following embodiments:

Embodiment 1 – Figures 1.1-1.6 directed a portable light with feet-like features on the bottom, and a repeated pattern of circular features in the light source; and

Embodiment 2 – Figs 2.1-2.6 directed to portable light without feet-like features, and a plain light source.

Multiple embodiments of a single inventive concept may be included in the same design application only if they are patentably indistinct. See *In re Rubinfeld*, 270 F.2d 391, 123 USPQ 210 (CCPA 1959).

Embodiments that are patentably distinct from one another do not constitute a single inventive concept and thus may not be included in the same design application. See *In re Platner*, 155 USPQ 222 (Comm'r Pat. 1967).

The above identified embodiments are considered by the examiner to present overall appearances that are basically the same. Furthermore, the differences between the appearances of the embodiments are considered minor and patentably indistinct, or are shown to be obvious in view of analogous prior art cited. Accordingly, they are deemed to be obvious variations and are being retained and examined in the same application.

OBJECTION – SPECIFICATION

The specification is objected to for the following reasons:

The figure descriptions do not clearly and accurately represent the reproductions. The descriptions of the figures are not required to be written in any particular format, however, they must describe the views of the reproductions clearly and accurately. See Hague Rule 7(5)(a), 37 C.F.R. 1.1024, MPEOP 2920.04(a)11. For this reason, the figure descriptions must be amended to include more accurate descriptions for all figures. The following language and format are suggested:

- - **Fig. 1.1 is a top and side perspective view of the Portable Lamp showing my new design, according to a first embodiment;**
Fig. 1.2 is a side elevation view thereof;
Fig. 1.3 is a top plan view thereof;
Fig. 1.4 is a side perspective view;
Fig. 1.5; is another side perspective view showing the lamp in an illuminated state, thereof;
Fig. 1.6 is another side perspective view showing the lamp in an extended state;
Fig. 2.1 is a top and side perspective view of the Portable Lamp, according to a second embodiment;
Fig. 2.2 is a side elevation view thereof;
Fig. 2.3 is a top plan view thereof;
Fig. 2.4 is a side perspective view;
Fig. 2.5 is another side perspective view showing the lamp in an illuminated state, thereof; and
Fig. 2.6 is another side perspective view showing the lamp in an extended state. - -

Additionally, the description that reads [Reproductions 1.5 and 2.5 show the lamp lit] should be removed.

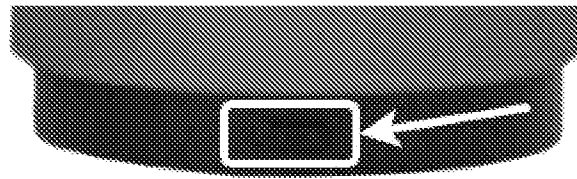

CLAIM REFUSAL – 35 U.S.C. § 112(A) AND (B)

The claim is rejected under 35 U.S.C. 112(a) and (b), as the claimed invention is not described in such full, clear, concise and exact terms as to enable any person skilled in the art to make and use the same, and fails to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claim is indefinite and non-enabling for the following reasons:

- The claim is indefinite and non-enabling because the exact three-dimensional appearance of a port-like feature (exemplified in the bottom portion of Figure 1.2) cannot be understood without resorting to conjecture, due to the appearance of the element as very dark and lacking contrast. The extremely dark hue makes it impossible to distinguish the differences between the orientation and curvatures of planes, which may create a variety of different depths within the design. Without lighter images, the exact three-dimensionality of the areas cannot be understood. See the following annotation for reference:

Fig. 1.2

- Additionally, the exact three-dimensional appearance of the feet-like features in Figures 1.4 and 1.5 cannot be understood in the absence of alternative views. Specifically, it is impossible to distinguish the exact shape, depth, and spatial relationship of those elements. See the following annotation for reference:

Fig. 1.4

Applicant may indicate that protection is not sought for those portions of the reproductions which are considered indefinite and nonenabling in the rejection under 35 U.S.C. 112 above by amending the reproductions to color those portions or convert those portions to broken lines and by amending the specification to include a statement that the portions of the scooter shown in broken lines form no part of the claimed design or a statement that the portions of the scooter shown by coloring form no part of the claimed design provided such amendments do not introduce new matter (see 35 U.S.C. 132 , 37 CFR 1.121).

REPLACEMENT REPRODUCTIONS

Any amended replacement reproduction sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended reproduction should not be labeled as “amended.” If a reproduction figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the reproductions for consistency. Additional replacement sheets may be necessary to

show the renumbering of the remaining figures. Each reproduction sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the examiner does not accept the changes, the applicant will be notified and informed of any required corrective action in the next office action. The corrected reproductions must not contain new matter (35 U.S.C. 132; 37 CFR 1.121).

CONCLUSION

In summary, the claim stands rejected under 35 U.S.C. 112(a) and (b) as set forth above.

Applicant is reminded that any reply to this Refusal must be signed either by a patent practitioner (i.e., a patent attorney or agent registered to practice before the United States Patent and Trademark Office) or by the applicant. If the applicant is a juristic entity, the reply must be signed by a patent practitioner. See 37 CFR 1.33(b).

The USPTO transacts business in writing. Applicants may submit replies to Office actions only by:

- Online via the USPTO's Electronic Filing System-Web (EFS-Web) (Registered eFilers only)

<https://www.uspto.gov/patents-application-process/applying-online/efs-web-guidance-and-resources>

- Mail: Commissioner For Patents, P.O. Box 1450, Alexandria, VA, 22313-1450
- Mailing should be done sufficiently in advance to ensure the USPTO receipt prior to reply period expiration
- Facsimile to the USPTO's Official Fax Number (571-273-8300) (Do Not Fax Formal Reproductions)
- Hand-carry to USPTO's Alexandria, Virginia Customer Service Window

For additional information regarding responding to office actions see:

<https://www.uspto.gov/patents-maintaining-patent/responding-office-actions>

Note that correspondence received will appear in Patent Center, which may be viewed by the applicant at: <https://patentcenter.uspto.gov>.

The references are cited as pertinent prior art. Applicant may view and obtain copies of the cited references by visiting <http://www.uspto.gov/patft/index.html> and pressing the "Patent Number Search" button.

CONTACT INFORMATION

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SARAH LYNNE SMITH whose telephone number is 571-272-6076.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eric L Goodman, can be reached at telephone number 571-272-4734. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Center. Unpublished application information in Patent Center is available to registered users. To file and manage patent submissions in Patent Center, please visit: <https://patentcenter.uspto.gov>. Visit <https://uspto.gov/patents/apply/patent-center> for more information about Patent Center, and <https://uspto.gov/patents/docx> for information about filing in DOCX format. For additional questions, contact the Electronic Business Center (EBC) at 866-217-9197 (toll free). If you would like assistance from a USPTO Customer Service representative, call 800-786-9199 (in USA or Canada), or 571-272-1000.

Examiner interviews are available via telephone, in-person, and video conferencing using a USPTO supplied web-based collaboration tool. To schedule an interview, applicant is encouraged to use the USPTO Automated Interview Request (AIR) at <http://www.uspto.gov/interviewpractice>.

Product Dimensions	3.15"D x 3.15"W x 13.5"H
Special Feature	6000 mAh large-capacity battery, Minimalist design, 360-degree light, Flicker free, eye protection, Long service life, all-metal body, Cordless, portable
Light Source Type	LED
Material	Aluminum
Lamp Type	LED
Room Type	Office
Shade Color	Gold
Shade Material	Metal
Power Source	Battery Powered
Shape	Round
Switch Style	Push Button
Number of Light Sources	20
Theme	Minimalist
Connectivity Technology	USB
Included Components	Light kit included
Wattage	4 watts
Manufacturer	JALVDE
Part Number	Maryan
Item Weight	1 pounds
Item model number	LMP-JAL-001
Batteries	1 Lithium ion batteries required. (included)
Assembled Height	13.5 inches
Assembled Length	3.15 inches
Assembled Width	3.15 inches
Voltage	5 Volts (DC)
Special Features	6000 mAh large-capacity battery, Minimalist design, 360-degree light, Flicker free, eye protection, Long service life, all-metal body, Cordless, portable
Light Direction	Downlight
Batteries included?	Yes
Batteries Required?	Yes
Luminous Flux	150 Lumen
Color Temperature	3000 Kelvin

	4.4 out of 5 stars
Best Sellers Rank	#19,142 in Tools & Home Improvement (See Top 100 in Tools & Home Improvement) #152 in Desk Lamps
Date First Available	October 16, 2020

WILLY SIDE TABLE=SASS AND CLASS!!!

I ordered this table afraid it would look silly with my traditional stuff. On the contrary: The Willy White Plaster side table gave my entire room a kick in its create butt! When friends walk in, they zero in on the table and comment how it elevates the room to stylish and FUN!
